

Associate Director – Pharmacovigilance- Cambridge

An OUTSTANDING OPPORTUNITY for a QUALITY CAREER!!!!

This is an excellent opportunity for a Pharmacovigilance person to move into a more Managerial position.

This key leadership role is for leading CLINICAL RESEARCH ORGANISATION (CRO) involved in a wide variety of clinical research and clinical trials projects which is renowned as a world class organization committed to providing an exceptional environment in which individuals can excel, and achieve their professional and personal goals.

The Incumbent will be responsible for assisting in the management and development of European safety management services. The Incumbent will ensure the delivery of safety management services consistent with company SOPs/WPDs, ICH guidelines and regulatory requirements by working with Safety Managers, and liaising with other departmental personnel as required. Supervisory responsibility of Safety Managers.

To have a quality Career and to be successful in this Key leadership Role you will have a Bachelor's or higher degree in science related field, or other relevant professional background and relevant industry experience. This experience should include a proven understanding of PVG, Drug Safety in clinical trials environments, essential safety processes and procedures, and previous management of teams.

If you know anyone with Drug Safety Skills which can help them to further their career through their Safety Skills, we would like to hear from them.

In return for your commitment to precision, meticulous attention to detail, excellent communication abilities and team player philosophy, this company can offer you exceptional career prospects, and attractive benefits

Position Based at Cambridge

Excellent Salary will be offered for the right candidate

If you feel you could become part of a world-leading organisation in the above role and are interested in learning more about this important position we are eager to hear from you.
