

CONSULTANT IN OPTICS –HERTFORDSHIRE, UK

Eager to apply your Optical skills to the World

Are you a skilled consultant with a background in optical physics and engineering? Here is an excellent opportunity to lead demanding development projects and build new business in product and technology development for the UK's leading technology developers.

You need to be a Physicist or Engineer with a good academic record and PhD degree. Project management experience in optics or similar field is essential. Business development experience would be an added advantage.

You would be expected to contribute to demanding development projects technically or by project management and lead in client communications and management. You should be able to identify opportunities to develop new business and build relationships with international clients.

Based near Hertfordshire, UK

Excellent salary and benefits to the right candidate

If you feel that you are the right person for the role and willing to be a part of a world-leading Company, then call the **New Discovery team at Phoenix & York** to discuss more.
