

**EXPERIENCED SAS PROGRAMMERS – EXCELLENT OPPORTUNITY - SCOTLAND**

**Make your SAS skills amount to something!**

One of the UK's leading global contract research organization (CRO) is seeking Experienced SAS Programmer to join their team.

This is an excellent opportunity for an experienced, proactive and well organized SAS Programmer.

You will be joining the Biostatistics department, you will work closely with statisticians, programmers, data managers and multi-disciplinary project teams to add your expertise to the reporting of clinical trial data using data summaries, listings and figures, as well as preparing data for statistical analyses.

To be considered for this Fantastic opportunity, you will need outstanding ability, team orientated approach, strong communication skills and previous experience of SAS, preferably within the clinical trial environment.

Depending on experience and skills, you will be able to take on additional responsibilities for project leadership, managing project budgets and staff mentoring. You will also be involved in cross-department process improvement initiatives and programmes.

Based in Bellshill, Lanarkshire

You will be rewarded with a highly competitive salary, excellent benefit and a balanced working environment. For a real career opportunity with plenty of room for progression

If you feel you could become part of a world-leading Company in the above role and are interested in learning more about this important position we are eager to hear from you

If you know anyone who wants to progress and programme their career with their SAS Programming Skills we would like to hear from them.
