

Graduate Software Engineers & Experienced Software Engineer

Want to apply your Software skills to the Scientific World!

This is the right opportunity for high-calibre individuals with a scientific and engineering background to join hands with the Leading Scientific Company in UK using its scientific, engineering and IT skills to give solutions to the most complicated technical and business problems.

You will have either completed your first degree and desire to move into software engineering or completing a PhD, DPhil or Post-Doc and want to use your scientific and IT experience in a commercial world.

You will have a strong interest in IT and its application to business and technical problems, and you must be able to assimilate new applications/technologies quickly and efficiently, work on multiple projects concurrently and have good problem solving and customer facing skills.

You will have experience of one or more of the main technologies:

- Microsoft .NET (C#, VB.NET, ASP.NET)
- Visual Basic
- Java (J2SE, J2EE)
- C, C++
- FORTRAN

Based in Abingdon, Burton, Stevenage and Warrington-UK

Competitive salary and benefits will be offered to the right candidate
