

PHARMOCOVIGILANCE MANAGERS – FANTASTIC OPPORTUNITY

HERE COMES YOUR DREAM JOB!!!!

Realise your future potential with your Drug Safety Skills

This is an excellent opportunity for a Pharmacovigilance person to move into a more Managerial position and **to join a world-renowned organisation involved in a wide variety of clinical research and clinical trials projects**

To progress within the Pharmacovigilance arena you will need a life sciences degree, nursing qualification or other relevant degrees with extensive Pharmacovigilance/drug safety experience within a pharmaceutical, clinical or health care setting and familiarity with ICH-GCP regulatory requirements and practice

You will have overall responsibility for the planning, co-ordination and delivery of a variety of research projects through your team of Safety Specialist, and in collaboration with other PVG managers, Lead Safety Specialist and senior staff globally, you will help develop consistent internal processes ensuring a quality service is delivered.

As a part of the role, you will provide accurate forecasts for all projects and ensure timely progress by monitoring study metrics. You will also be actively liaising with the Project Manager and Sponsors to ensure optimal performance and utilization of the PVG project team.

If you know anyone with Drug Safety Skills which can help them to further their career through their Safety Skills, we would like to hear from them.

In return for your commitment to precision, meticulous attention to detail, excellent communication abilities and team player philosophy, this company can offer you exceptional career prospects, and attractive benefits

Based **Cambridge or Bellshill, Lanarkshire -UK**

Excellent Salary will be offered for the right candidate

If you feel you could become part of a world-leading organisation in the above role and are interested in learning more about this important position we are eager to hear from you.
