

QA Manager – Cambridge – UK

QUALITY IS ALWAYS REMEMBERED!!!!

Is Quality Assurance something you pride yourself on? If yes, then this is just the role you have been looking for.

This is a fantastic opportunity to join the UK's Leading Contract Research Organization.

To meet this unique challenging role, you will ideally need a passion for quality combined with experience of multi-national clinical studies in pharmaceutical or CRO business environments and experience in Quality Assurance; you will have a working knowledge of the background and application of GCP.

The job holder will be responsible to schedule and conduct audits and to perform internal facility and system audits for all operations. You will have interactions with key players and operational managers, and represent the quality function. As a senior member of the group you will mentor auditors and assist the Executive Director with planning of audit programmes, review of results from all audit types and recommend improvement strategies. You will also play a key role during client audit and regulatory inspection activities.

In return for your commitment to precision, meticulous attention to detail, excellent communication abilities and team player philosophy, this company can offer you exceptional career prospects, and attractive benefits

If you have, or know anyone with, substantial QA Experience and Extensive GCP Knowledge in the pharmaceutical industry who would like to take this Key Position, we would like to hear from them.

Based Cambridge -UK

Excellent Salary or rates will be offered for the right candidate.

If you feel you could become part of a world-leading organization in the above role and are interested in learning more about this important position we are eager to hear from you.
