

Quality Systems Manager (Biostatistics & Programming) Cambridge, Bellshill, Winchester, Brussels or Nuremberg offices.

Opportunity for You to move into a Next Step of Your Career!!!!

This is an excellent opportunity for a SAS Person to move into a more Managerial position and to join a world-renowned organisation with tremendous growth and challenging work involved in a wide variety of clinical research and clinical trials projects.

To Progress within the SAS Programming Arena you will possess a BA/BS degree or equivalent in computer science, statistics, biostatistics, mathematics or related field. An MA/MS degree or equivalent in computer science, statistics, biostatistics, mathematics or related field would be advantageous albeit not essential.

You will have extensive experience of SAS programming including an understanding of SAS/STAT and data step programming, as well as experience with Root Cause Analysis methodologies. Coupled with your logic and problem solving capability and knowledge of clinical trials research.

As a part of the role you will provide consulting and mentoring to all levels of staff on quality principles as they relate to any Biostatistics processes at their assigned location. Specifically The Quality Systems Manager (QSM) will take a leadership role with the Local Management Team personnel at assigned location to define problems, strategies and develop implementation plans for quality improvement. As such the QSM will develop or coordinate strategic initiatives, which may include the management of junior Quality Systems staff. The QSM will also work with Senior Management to establish overall quality and performance metrics collect and analyze metrics data, and present results to peers and senior management. The QSM will serve as the coordinator for the development and delivery of training initiatives regarding process compliance and quality improvement.

If you know anyone with SAS Programming skills which can help them to further their career through their SAS Skills, we would like to hear from them.

In return for your commitment to precision, meticulous attention to detail, excellent communication abilities and team player philosophy, this company can offer you exceptional career prospects, and attractive benefits

Based Cambridge, Bellshill, Winchester, Brussels or Nuremberg offices. -UK

Excellent Salary will be offered for the right candidate

If you feel you could become part of a world-leading organisation in the above role and are interested in learning more about this important position we are eager to hear from you.
