

SAS Programmer Analyst - Excellent Opportunity - Cambridge, Winchester or Bellshill (Glasgow)

WITH YOUR SAS SKILLS FIND YOURSELF WHERE YOU WANTED TO BE!!!!

One of the UK's leading global Clinical Research Organization (CRO) is seeking Experienced SAS Programmer to join their team.

This is an excellent opportunity for an experienced, proactive and well organized SAS Programmer.

You will be joining the Biostatistics/Programming team, you will provide SAS® programming support for the creation, validation and execution of programs that transfer data across multiple systems, combine data from a variety of sources and structures. You will also provide programming support for the specification, development and validation of the analysis database and statistical appendices, with appropriate documentation.

Working alongside clients on varied projects you will be an integral member of the multi-disciplinary project teams. The continued growth of the team will generate opportunities to contribute to various departmental programmes including process streamlining and tool assessment/development.

To be considered for this Fantastic opportunity, you will need outstanding ability, team orientated approach, strong communication skills and previous experience of SAS, preferably within the clinical trial environment.

Depending on experience and skills, you will be able to take on additional responsibilities for project leadership, managing project budgets and staff mentoring. You will also be involved in cross-department process improvement initiatives and programmes.

Based in Cambridge, Winchester or Bellshill (Glasgow)

You will be rewarded with a highly competitive salary, excellent benefit and a balanced working environment. For a real career opportunity with plenty of room for progression

If you feel you could become part of a world-leading Company in the above role and are interested in learning more about this important position we are eager to hear from you

If you know anyone who wants to progress and programme their career with their SAS Programming Skills we would like to hear from them.
