

BIostatistics Manager - Fantastic Opportunity - Hampshire

Climb the LADDER of Your Career through NUMBERS!!!!

Are you looking to work in a global growth company where you can make a real difference?

Do you have the ability to not only look at the numbers but also help people see the solution?

If yes, then we have an **excellent career opportunity for you to join** Europe's leading Global contract research organization (CRO)

The core components of the role will involve providing a consultancy service on a variety of Biostatistics and multifunctional projects, you will oversee the statistical aspects of clinical trials from design through analysis and reporting. Representing the Biostatistics department in interactions with client companies and regulatory agencies, your responsibilities will include managing a growing team of statisticians and statistical programmers and organizing the distribution of work. Furthermore, you will have budgetary and overall responsibility for managing projects and ongoing recruitment within your team. You will also contribute to the management team responsible for the strategic development of the Biostatistics department.

To be successful in this role it is essential that you have a proven track record of managing a team and strong interpersonal skills to communicate with colleagues both internally and externally across different levels and disciplines. You will have a degree in Statistics and previous experience of statistics in a clinical trial environment.

If you know anyone with a passion for playing with numbers to get the solution and would like to take a step up in the career would like to hear from them.

Based Winchester-UK

Excellent Salary or rates will be offered for the right candidate.
